

# **A tamper-proof, wearable, biometric, blockchain device**

**Your *BRDG* to the World**

# Person-to-IoT object interaction

## Immediate access

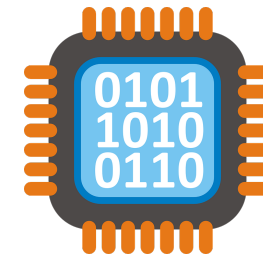

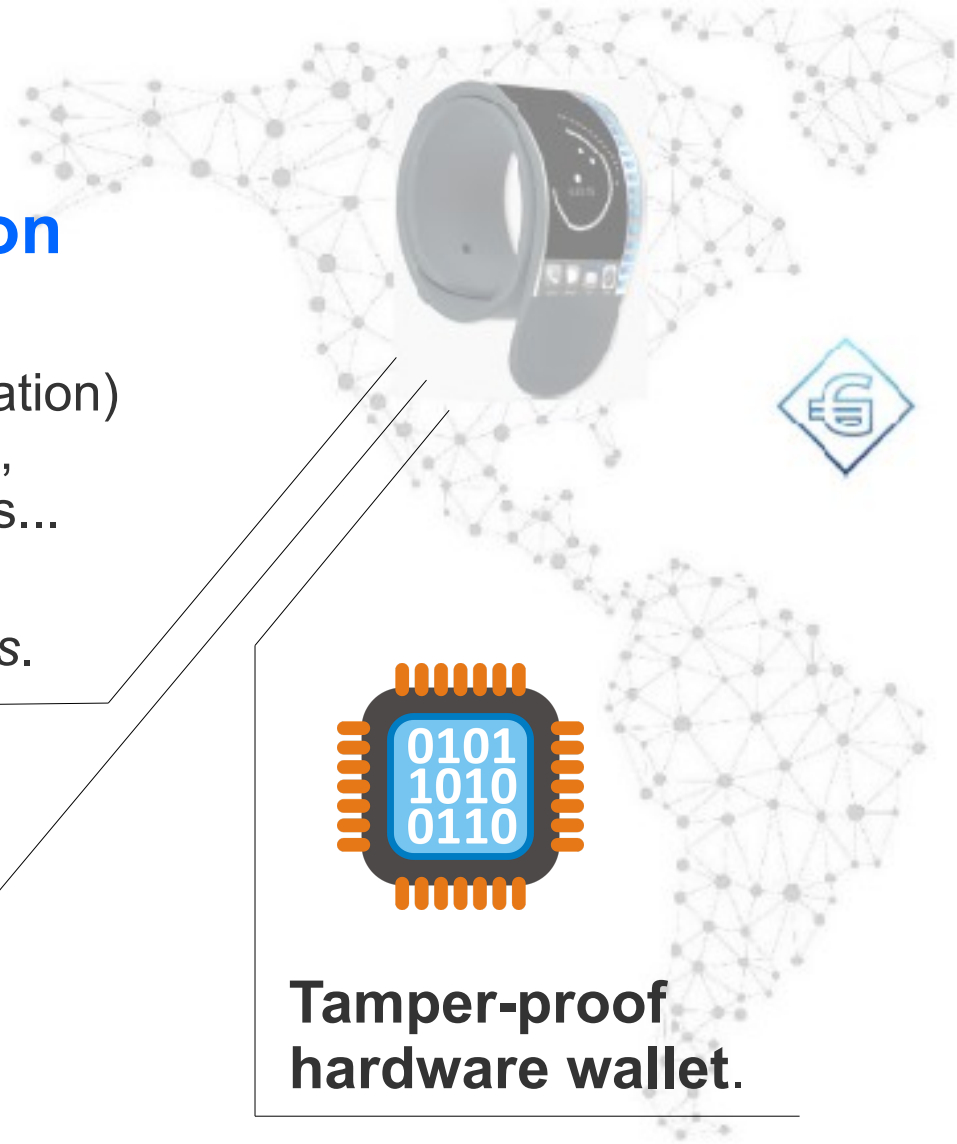

(wi-fi + blockchain verification)  
to home, workplace, club,  
airport check-in, accounts...

- *without ID, tickets, cards, name, passwords or PINs.*

Secret  
messaging,  
unrestricted social networks.

# Person-to-Person interaction

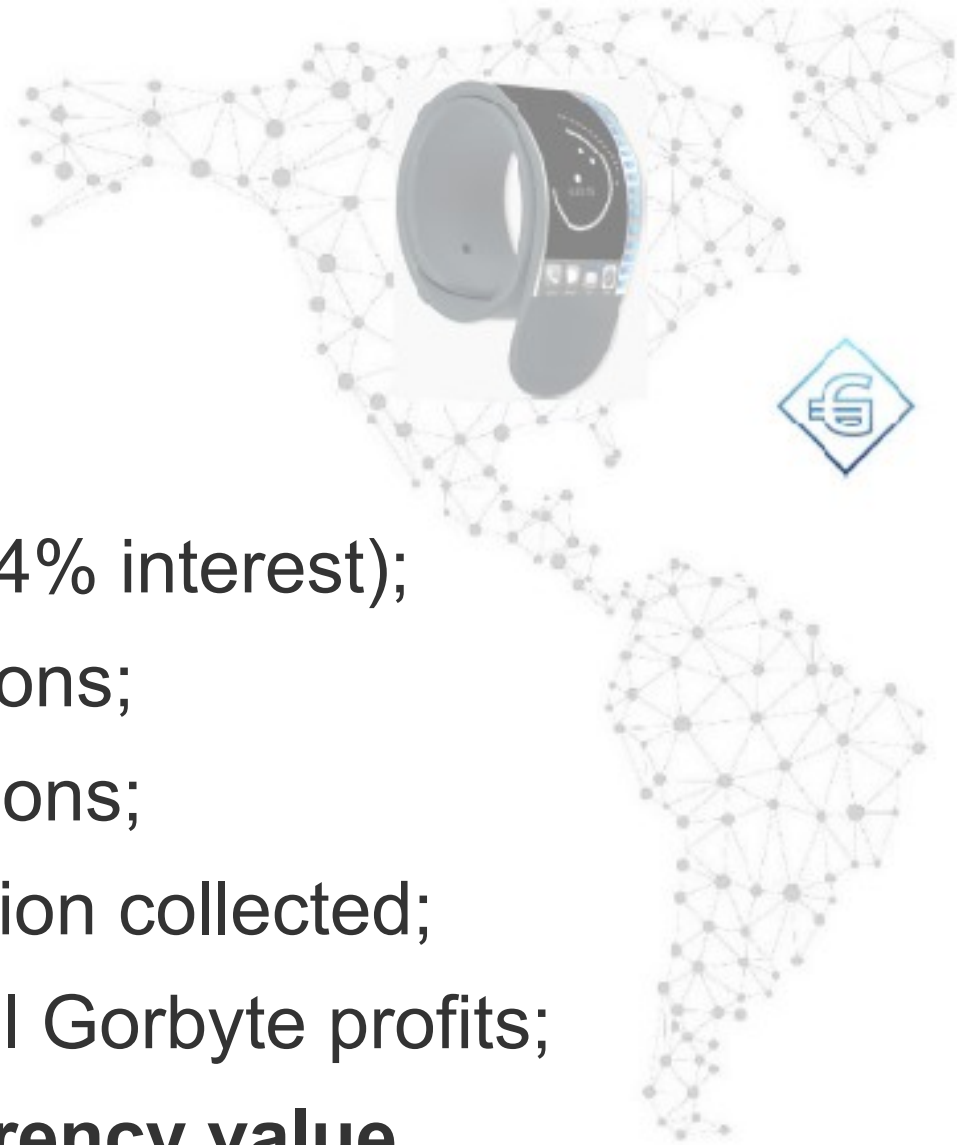

Tamper-proof  
hardware wallet.

No-fee Financial  
Transactions

# Be Your Own Bank

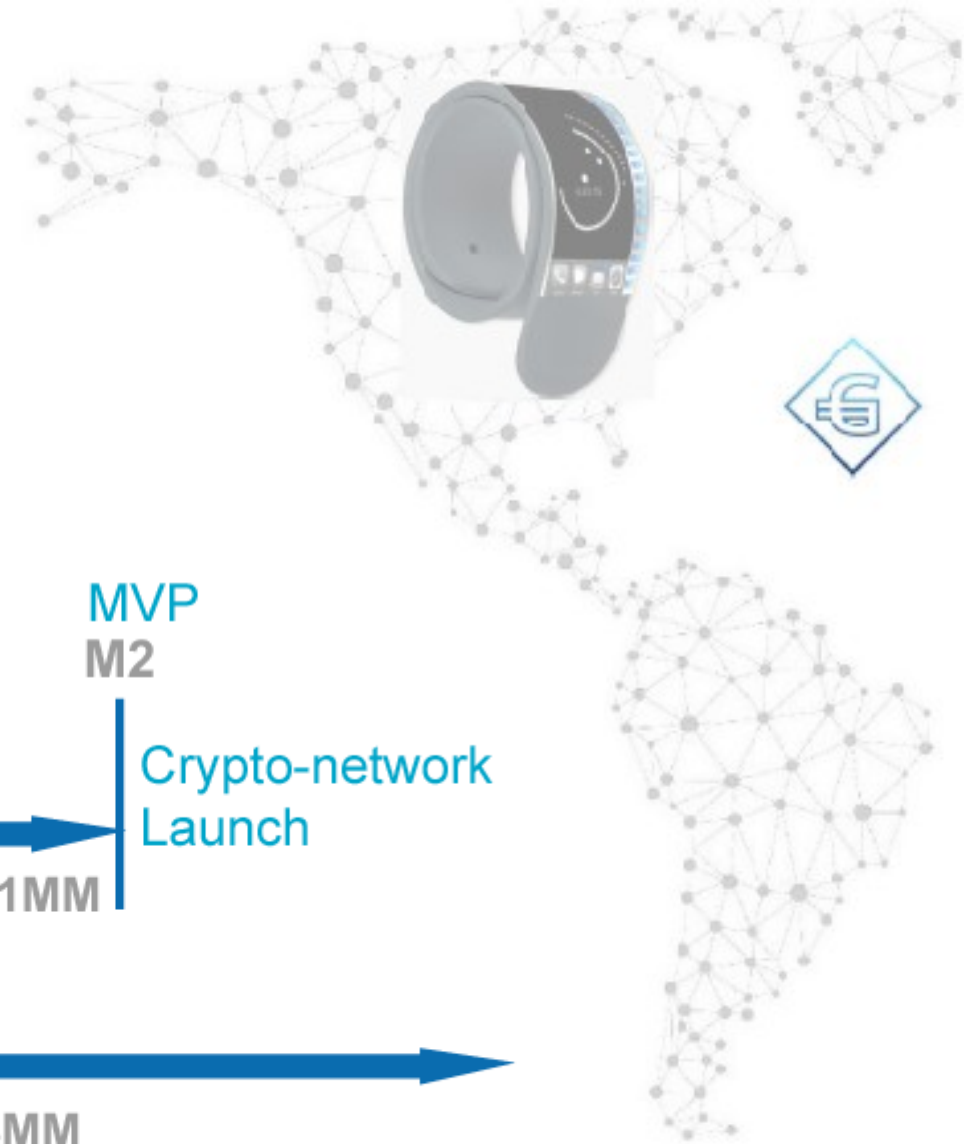

- No-fee **savings account** (4% interest);
- **No-cost** financial transactions;
- **Fast** transaction confirmations;
- **No ID** or personal information collected;
- **Receive dividends** from all Gorbyte profits;
- A usable, more **stable currency value**.

# Becoming the Leader in:

- A new generation scalable crypto-network;
- A Distributed Operating Environment (DOE) for future Apps;
- A Blockchain-Registered Unique Device (*BRUD*) architecture;
- Using Real-time **biometric** technology;
- Using **Tamper-proof, wearable** hardware technology.

# Plan & Financing

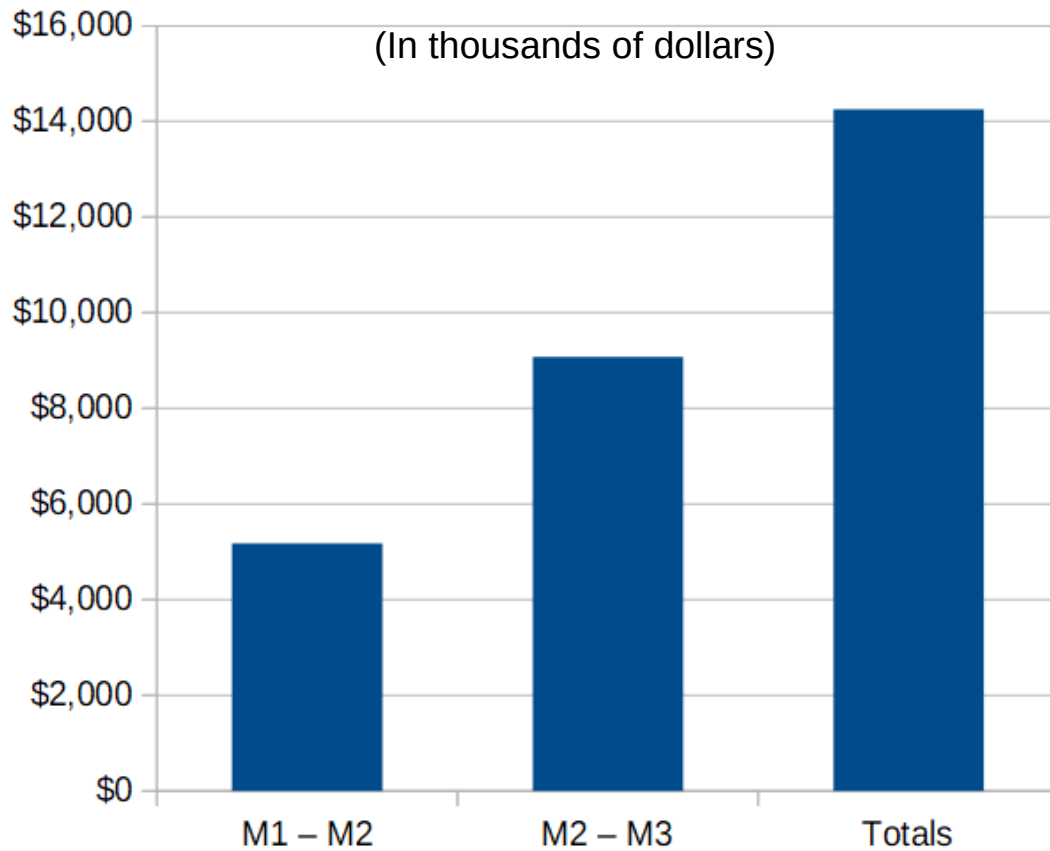

## *BRDG* Device

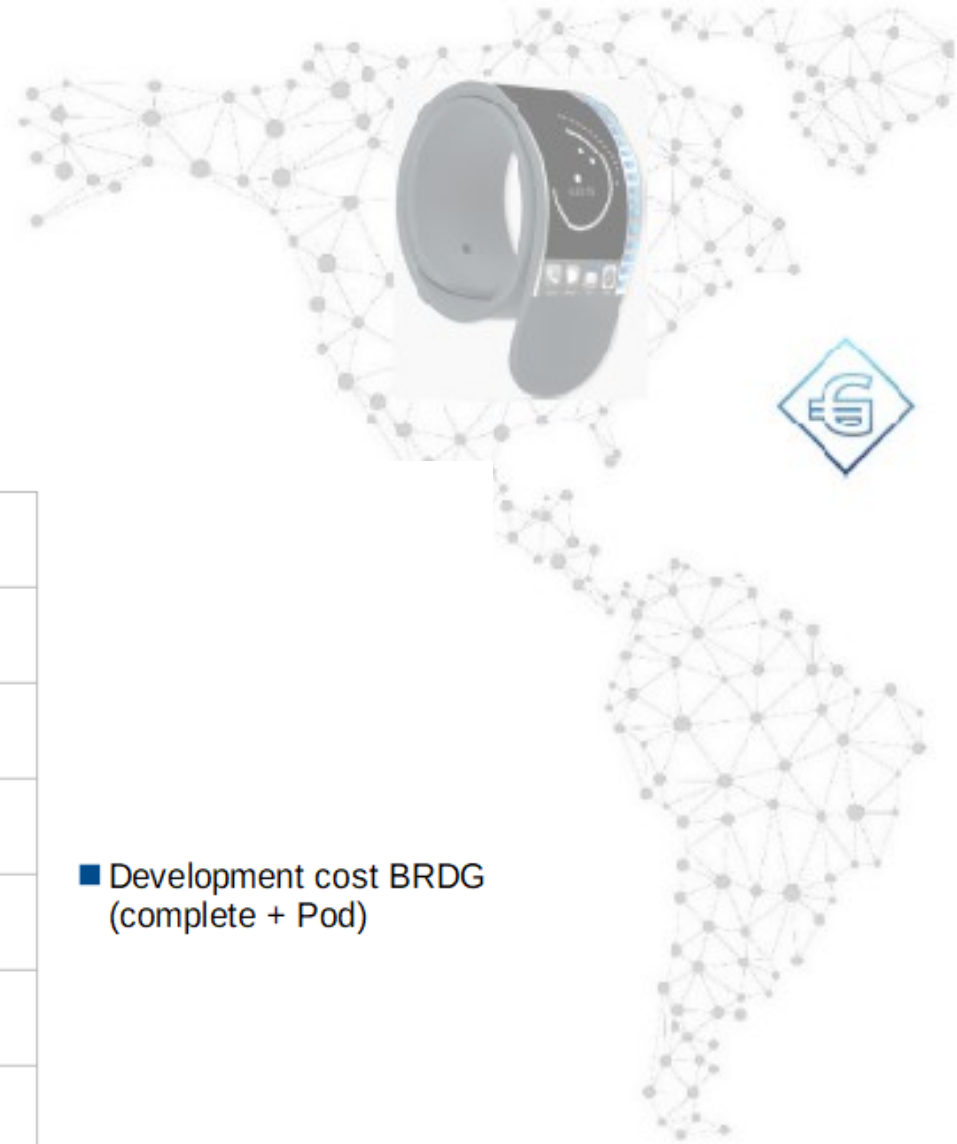

- Hw wallet: 15 months ~\$3MM
- BRDG: 24 months ~\$5MM
- Biometrics: 12 months ~\$3MM
- Backup Pod: 14 months ~\$3.5MM

# Complete *BRDG* Development Cost

■ Development cost BRDG (complete + Pod)

# Complete *BRDG* (Hw Wallet, Biometrics, Backup Pod)

## Estimates:

Number of units:	1	<b>45000</b>
<i>BRDG</i> complete: production cost	\$60	\$2,700,000
Backup Pod: production cost	\$30	\$1,350,000
<i>BRDG</i> complete: sale price	\$300	\$13,500,000
Backup Pod: sale price	\$120	\$5,400,000
<i>BRDG</i> complete: Profit	\$240	\$10,800,000
Backup Pod: Profit	\$90	\$4,050,000
Break even with development cost:		<b>\$14,850,000</b>
