

A Tamper-proof, Wearable, Biometric, Blockchain Device

Your *BRDG* to the World

Person-to-IoT object interaction

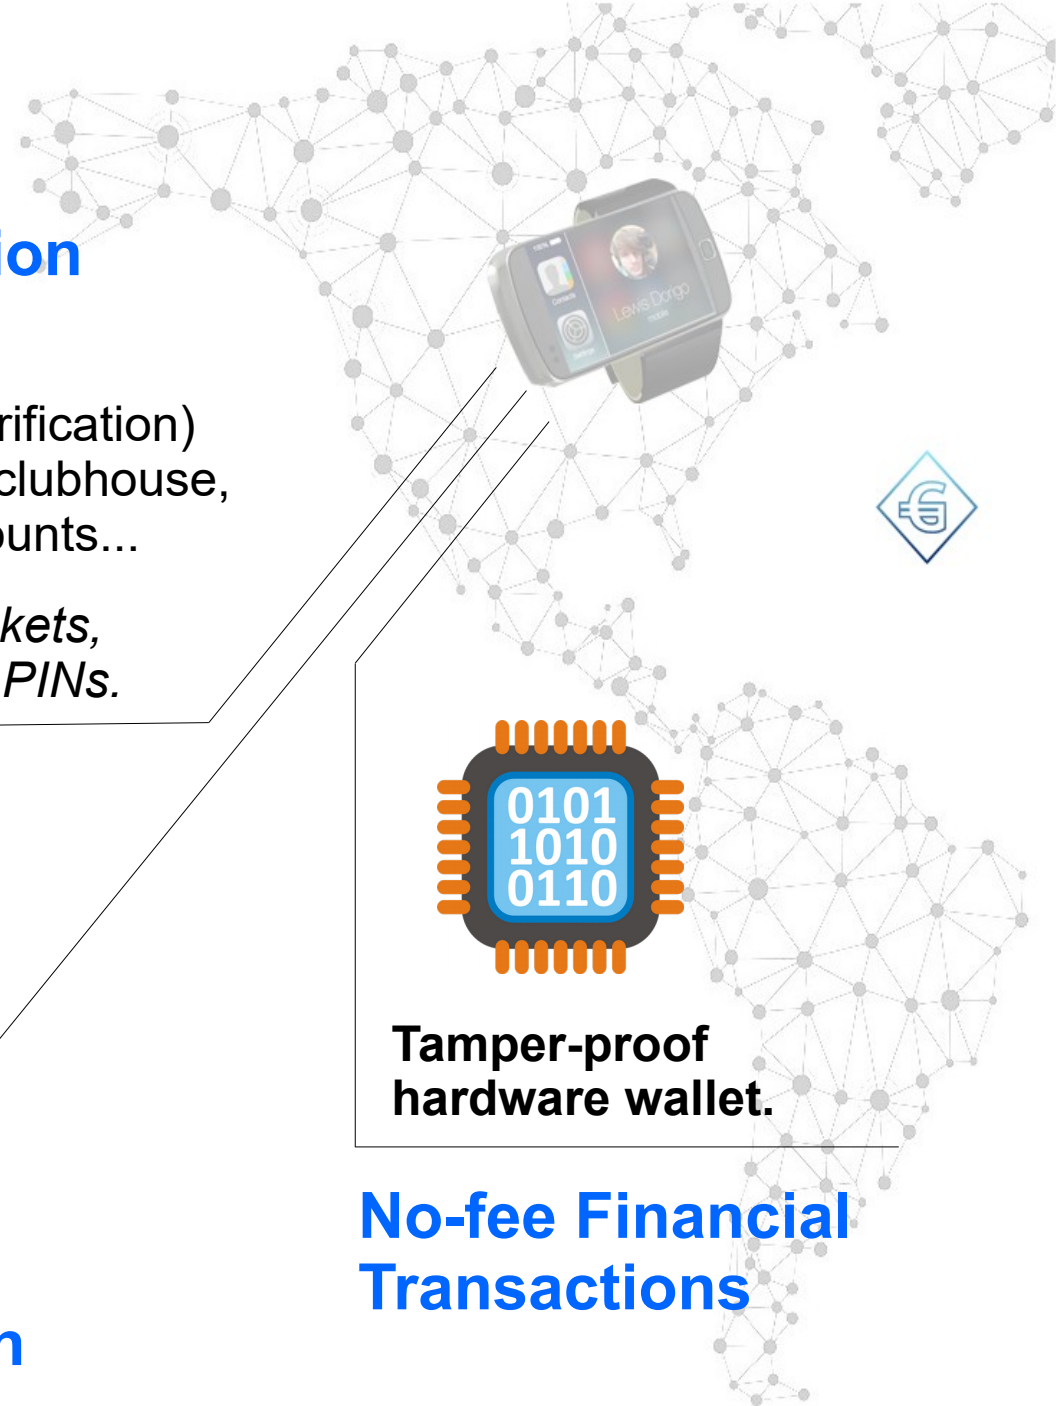

Immediate access
(wi-fi + blockchain verification)
to home, workplace, clubhouse,
airport check-in, accounts...

*Without ID, cards, tickets,
name, passwords or PINs.*

**Secret
messaging,
unrestricted social networks.**

Person-to-Person interaction

Be Your Own Bank

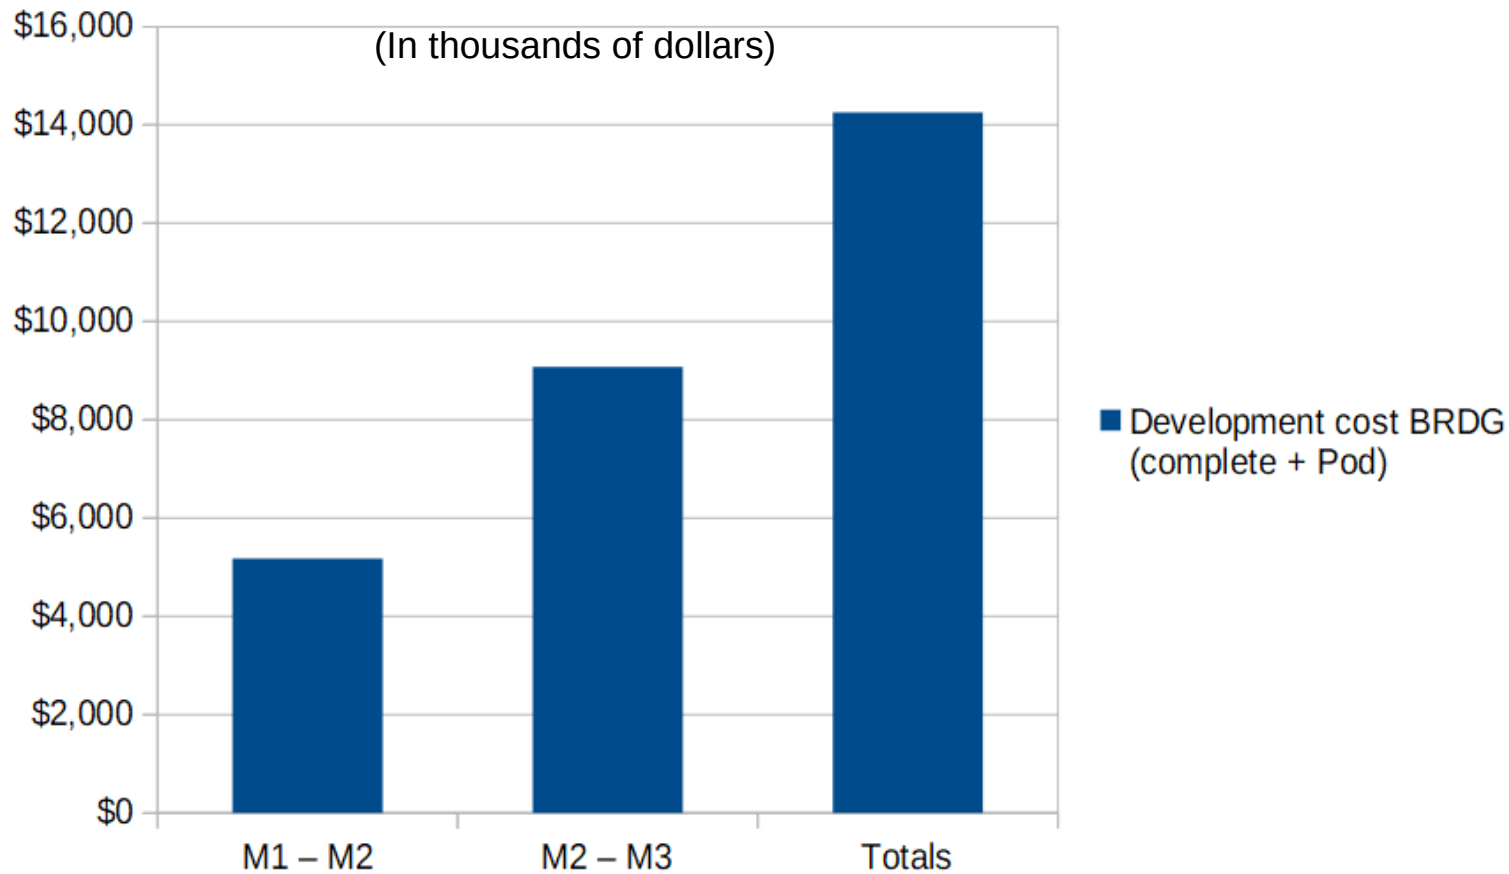

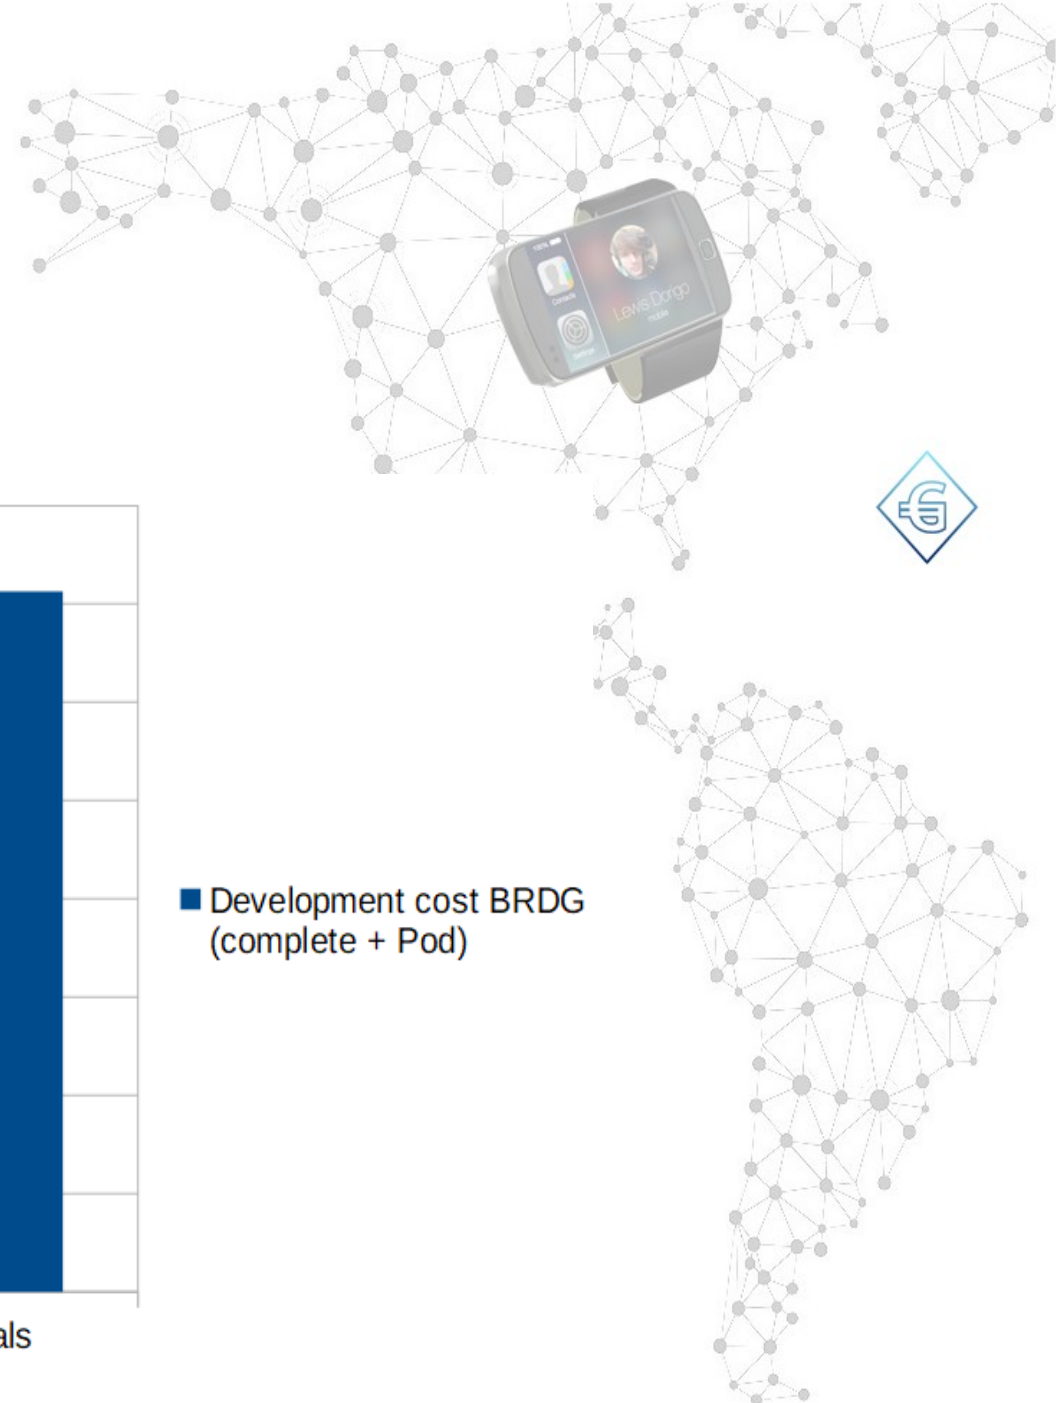

- No-fee **savings account** (4% interest);
- **No-cost** financial transactions;
- **Fast** transaction confirmations;
- **No ID** or personal information collected;
- **Receive dividends** from all Gorbyte profits;
- A usable, more **stable currency value**.

Becoming the Leader in:

- A new generation scalable crypto-network;
- A Distributed Operating Environment (DOE) for future Apps;
- A Blockchain-Registered Unique Device (*BRUD*) architecture;
- Using Real-time **biometric** technology;
- Using **Tamper-proof, wearable** hardware technology.

Complete *BRDG* Development Cost

Complete *BRDG* (Hw Wallet, Biometrics, Backup Pod)

Estimates:

Number of units:	1	45000
<i>BRDG</i> complete: production cost	\$60	\$2,700,000
Backup Pod: production cost	\$30	\$1,350,000
<i>BRDG</i> complete: sale price	\$300	\$13,500,000
Backup Pod: sale price	\$120	\$5,400,000
<i>BRDG</i> complete: Profit	\$240	\$10,800,000
Backup Pod: Profit	\$90	\$4,050,000
Break even with development cost:		\$14,850,000
