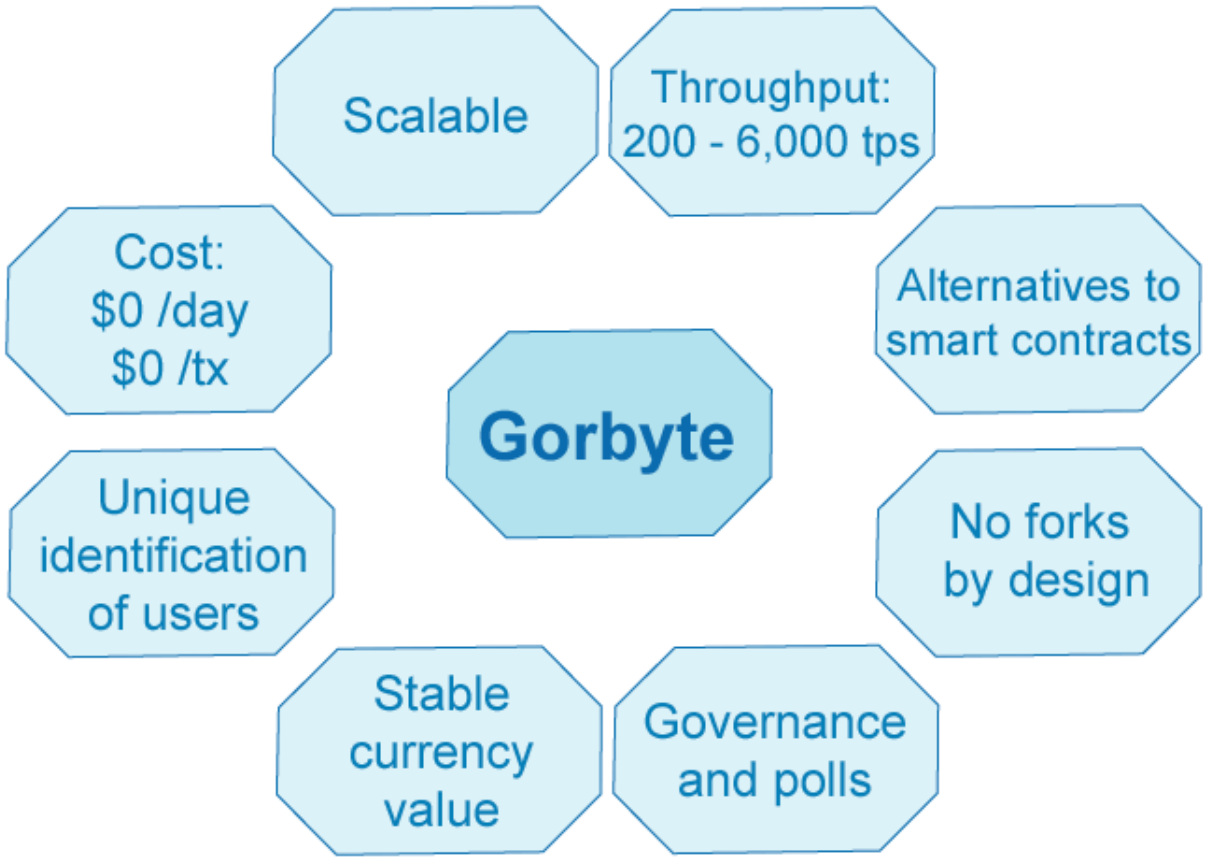
Gorbyte: A New Generation Crypto-network
gorbyte.com

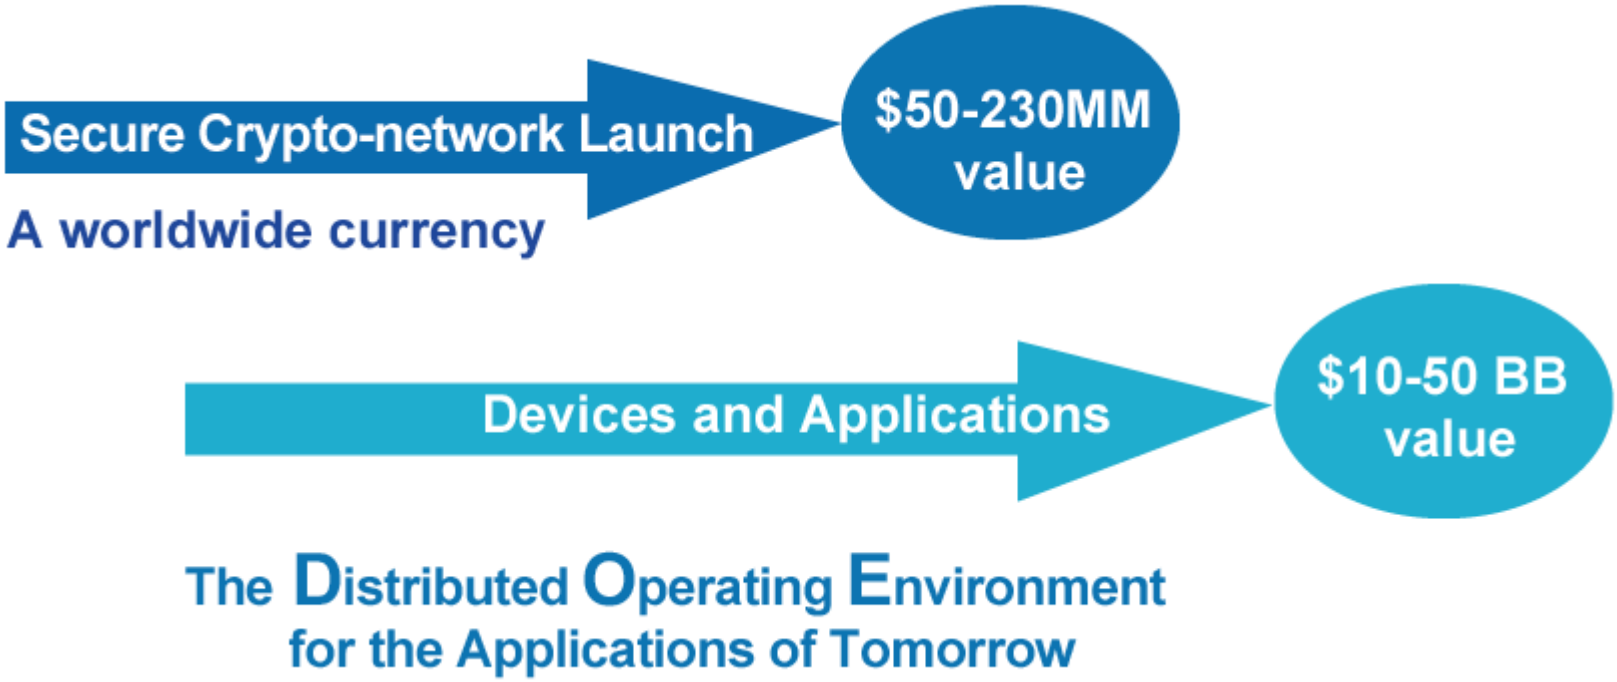
Solves the Problems of Current Public Crypto-networks (e.g. Bitcoin, Ethereum)



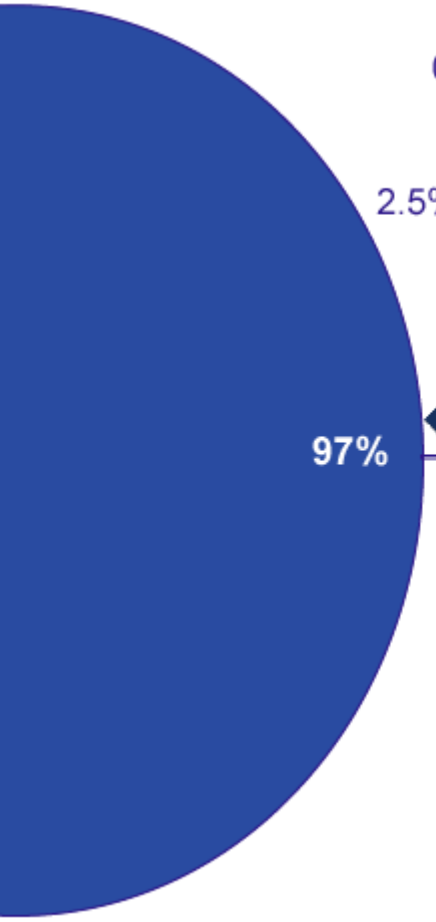
New Generation Un-permissioned Public Crypto-network

- *Distributed consensus: All nodes participate.*
- *No network operation cost.*
- *Nodes are rewarded with no-fee financial services.*
- *Unique blockchain-registered devices provide network security and unique user identification.*

Gorbyte Vision



Distributed Application Market



Bitcoin - Financial transactions, Contracts.

ethereum - Financial transactions, Smart Contracts:
e.g.: Tokens, Certificates, Legal documents, etc.
