

Gorbyte: A New Generation Crypto-network
gorbyte.com

Will Solve the Problems of Current Public Crypto-networks (e.g. Bitcoin, Ethereum)

Gorbyte Vision

a **Scalable, Secure Crypto-network**

a **Distributed Operating Environment**

Distributed Application Market

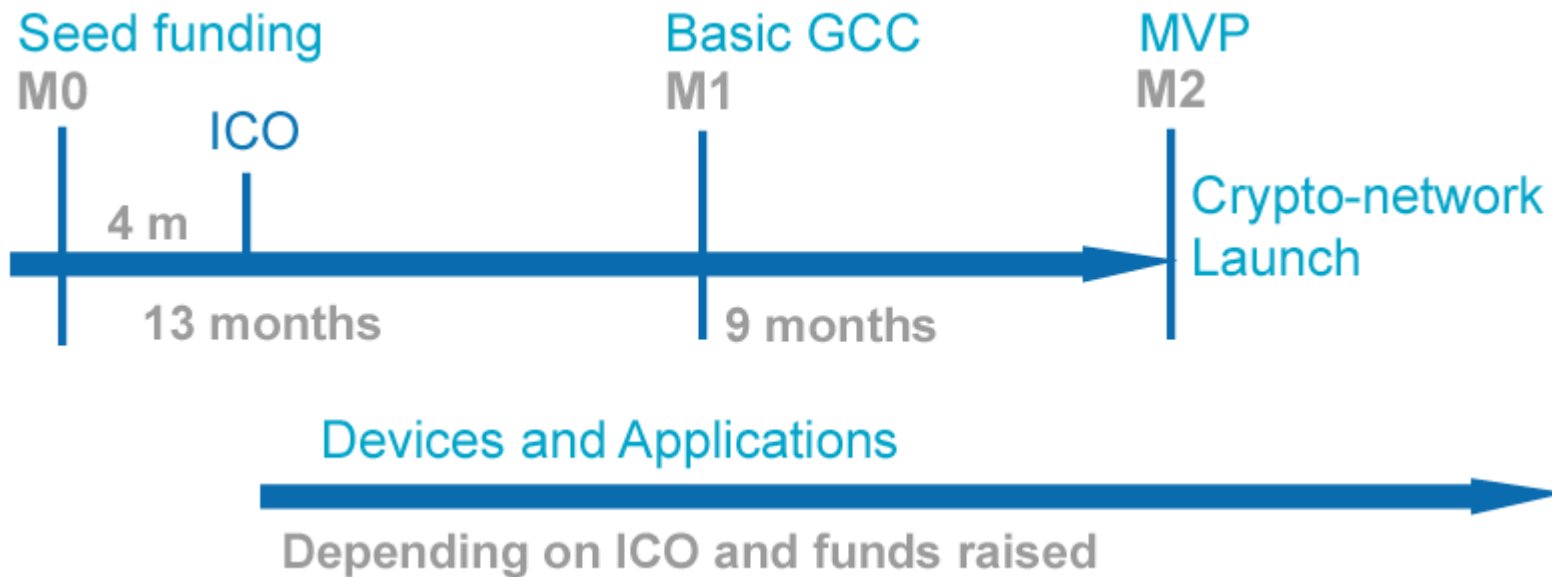

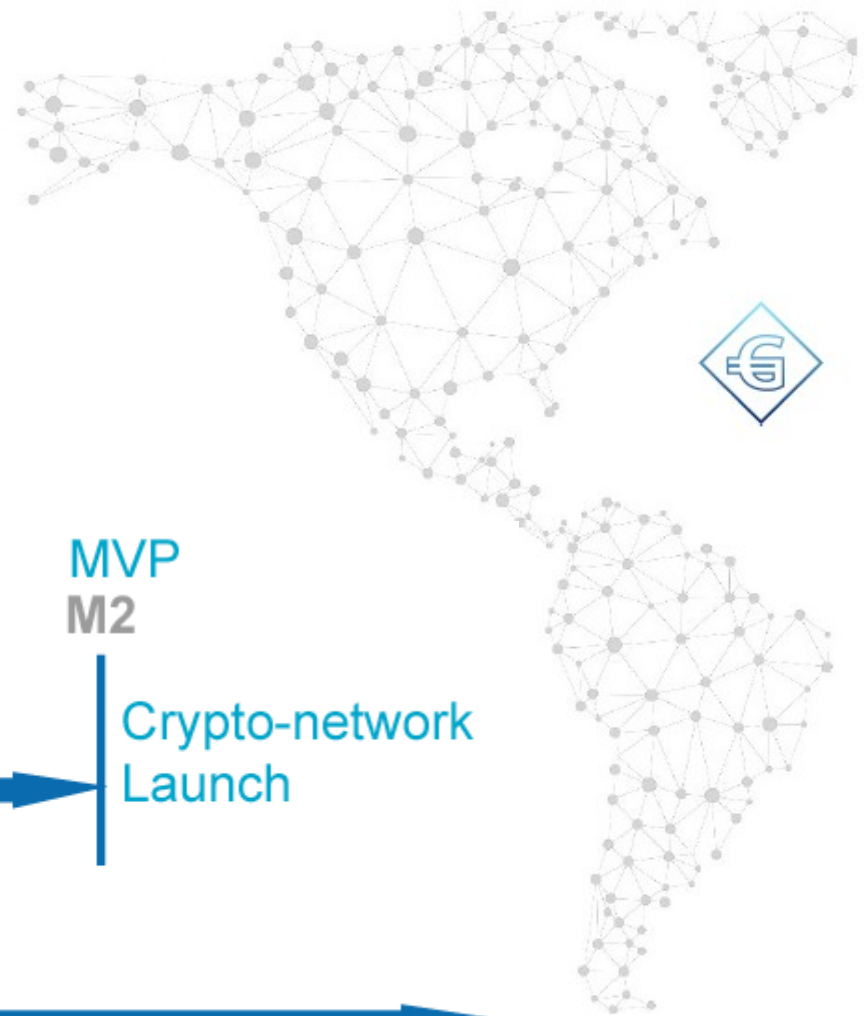

0.5% ● **Bitcoin** - Financial transactions, Contracts.

2.5% ● **Ethereum** - Financial transactions, Smart Contracts:
e.g.: Tokens, Certificates, Legal documents, etc.
- Dapps: Blockchain as a virtual machine.

97% **Gorbyte** - Financial transactions, Contracts; PLUS:
- Savings account, profit sharing; Governance; Polls;
- Device/Asset/Entity Registration; Secret messaging;
- Stable, usable currency; (MVP) PLUS:
- IoT: object-to-object, person-to-object, person-person interaction;
- BRUD devices: Biometrics, Tamperproof Hw Wallet;
- **GA**pps: ● On-the-blockchain processing for:
registration, critical data, hystorical records;
● Off-the-blockchain for volume encrypted data; VPBNs;
I.e: **Every possible distributed application ever conceived.**

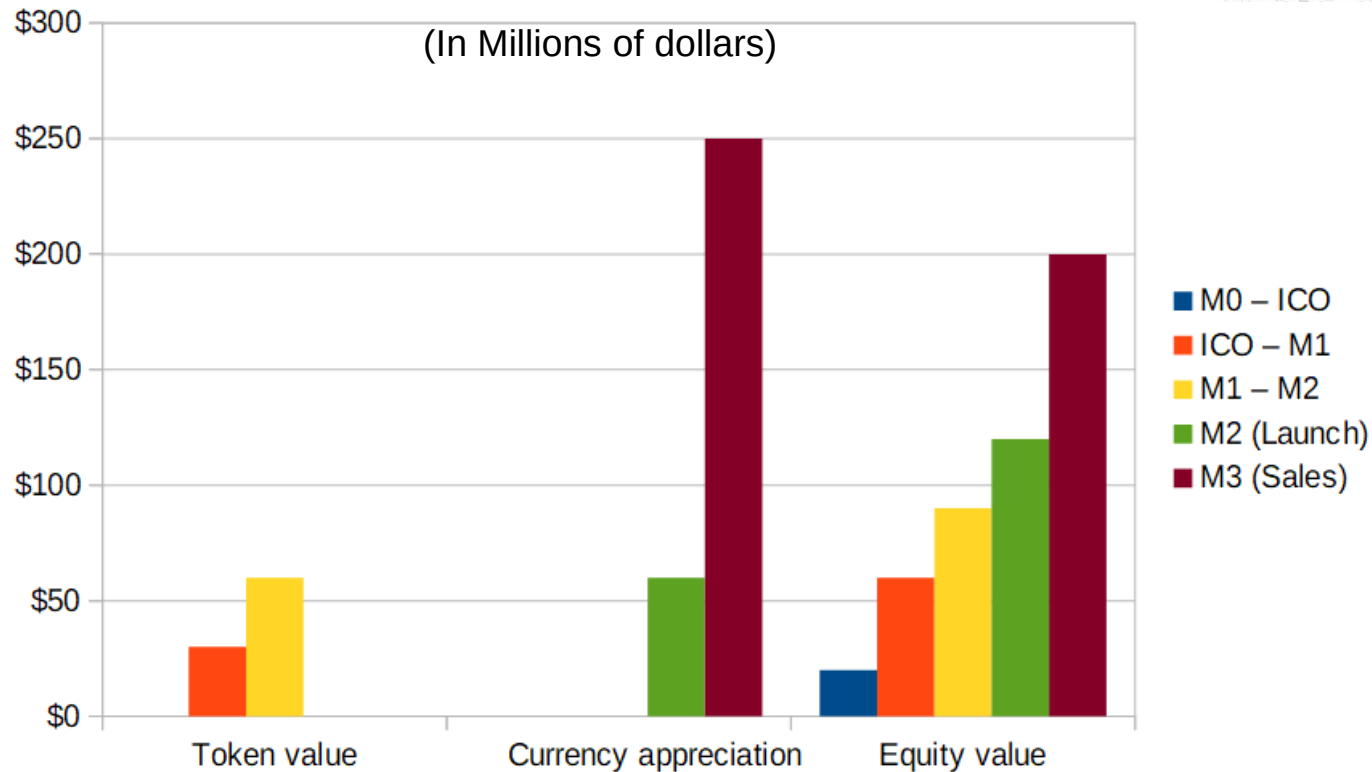

Milestones

If you are an investor, please ask us about Funds Required: info@gorbyte.com
